Summary

I am an independent software developer who is currently pursuing my bachelor's degree in computer science. I love building native software and web applications. I specialize in Java and have some experience working with Python and C++. I also have experience working with HTML, CSS and JavaScript. I mostly do 3D animation/modelling as a hobby. I'm a person who is eager to learn new things every day. Take a look at my work and feel free to get in touch if you are interested. Thank you.
